

A large excavator bucket is shown in the process of dumping a load of dark, rocky material. The bucket is suspended in the air, with a cloud of dust and debris trailing behind it. The excavator's cab and tracks are visible in the lower half of the frame. The background consists of a steep, rocky hillside under a dark, overcast sky.

## **MINING GROUP**

**NORTH AMERICA'S TRUSTED  
MINING SERVICES CONTRACTOR**

A large yellow Volvo mining truck is shown from a side profile, parked on a pile of dark, rocky material. An excavator's bucket is positioned above the truck's bed, dumping a large amount of dark, clumpy material into it. A significant amount of dust or fine material is being kicked up by the impact of the dump. The Volvo logo is visible on the side of the truck's body. The background consists of a steep, rocky hillside with some sparse vegetation. The lighting suggests it might be early morning or late afternoon, with a warm, golden glow.

# REDEFINING THE CONTRACTOR EXPERIENCE.

Turner Mining Group is a team of experienced mining industry professionals performing a full spectrum of mining services across North America. Trust us when it comes to taking mining to the next level.

Our team services the largest cement, aggregates, metals and specialty minerals producers with superior flexibility and value all while maintaining a safe work culture. Projects large or small, we do it all.

# **ELIMINATE HEADACHES & PROTECT YOUR BOTTOM LINE.**

## **CONTRACT MINING**

### **Avoid Complexity with Turnkey Operations**

Ramp up production with customized contract mining packages and stay ahead of weather, permitting, workforce and equipment fleet challenges. Count on low, fixed cost solutions that are easy to ramp up when demand increases.

## **OVERBURDEN REMOVAL**

### **Uncover Your Reserves on Time**

Whether it be 100,000 or 10 million cubic yards of overburden, we've got you covered. Hit campaign goals safely with our team's attention to timing and sequencing—keeping your production on track.

## **RECLAMATION**

### **Maximize Ground Value**

When your mine site must be returned to a beneficial state, trust us to restore the earth based on your permitting specifications. Whether it's ongoing reclamation to keep the site clean or the final service to complete operations, we have the technology and experience to get the job done right.

## **SPECIALTY MINE SERVICES**

### **Focus on What's Important**

If it's not the core of your business, leave it to us.

- Tailings Storage Facilities
- Leach Pad / PAG Facilities
- MSE Wall Construction
- New Mine Development
- Plant Site Grading
- Silt pond management

# MINING PROJECTS DONE **RIGHT.**

## **DRILL & BLAST**

### **Unlock Ore with Confidence**

Reliable and accurate drilling and blasting. With flexible mobilization, you can depend on our safety and agility when it comes to uncertain geological needs. As a long-term mining partner, we can continue to offer a full spectrum of solutions as your site develops.

## **CRUSHING & SCREENING**

### **Meet Market Demands**

Whether you need temporary support or a permanent solution, we offer experience, flexibility and rapid mobility. From 50,000 to 2 million tons, meet production requirements at their peak.

## **STAFFING**

### **Support from Best People in the Business**

When you're facing labor challenges, we can respond rapidly with a contingent workforce that specializes in mining (part 46 and part 48 MSHA certified). As an extension of your team, we'll bring safe, qualified and professional crews to boost performance.

PROJECT HIGHLIGHT

# LEHIGH HANSON, PERMANENTE MINE

CUPERTINO, CA

Turner Mining Group was contracted to manage all phases of an aggressive mining campaign to capture valuable ore from a pit which had been previously mined using conventional methods. The project hinged on sequenced drilling and blasting, irregular orebody sampling, mapping and management in addition to GPS enabled contract mining to ensure accuracy in a complex environment.

 Drilling & Blasting, Ore Sampling and Contract Mining

 11 Million Tons

 Total Reportable Incident Frequency Rate (TRIFR): 0

 200,000 Man Hours

**“Turner Mining Group played a critical role in the final mining campaign at Permanente. When the ore model changed or production requirements increased, [they] didn’t issue change orders but instead doubled down on their commitment to around the clock service and nonstop ore sampling which yielded more high grade rock months ahead of forecasted schedules.”**

— George Taylor,  
Mine Manager

**Lehigh Hanson**  
HEIDELBERGCEMENT Group

PROJECT HIGHLIGHT

# IMERYS, OAK HILL MINE

LOUIS, NY

Turner Mining Group is currently contracted to provide a turnkey mining solution for a commercial mineral facility in the Northeast United States. Responsibilities span the full spectrum of mining activities including pit development, drilling & blasting, overburden & interburden removal and ore mining. With the extreme winter weather conditions and a limited site access, all work must be completed within the 6-month permitted mining season making efficiency, equipment availability and meeting production targets second only to safety in importance.

 Overburden Removal, Drilling & Blasting, Ore Mining

 6 Million Tons

 Total Reportable Incident Frequency Rate (TRIFR): 0

 5 Years

**“The Covid pandemic presented some very swift and unique contract challenges for our operations and Turner Mining Group performed like a true partner every step of the way. Professionalism, transparency, and the experience to make a real difference in our business.”**

— Dave Marek,  
Senior Manager Mine Planning

## WHY TURNER?

### VISION

#### What we're here to do

As the trusted full-service provider, we are a positive force transforming the mining industry through dedication to our purpose, people and partners.

### PURPOSE

#### Why we exist

To make life better for the mining industry.

### VALUES

#### We commit to

##### A Heart for People

We are a people company, that performs mining services. We are building a team that feels like a family, holding each other ruthlessly accountable for our collective wellbeing.

##### A Mind For Innovation

No thought left behind. We relentlessly pursue innovative ways to get the job done that change our industry. No process is set in stone.

##### An Eye For Safety

We believe that doing the job safely, IS doing the job productively. We go to extremes—big and small—to ensure we remain a trusted partner and employer.
